

Technology Transfer Alliance Collaboration Platform

Diana Rwegasira– University of Dar es Salaam- Tanzania (dianarosetz@yahoo.com)
e-Research Summer Hackfest – Catania (Italy)

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement n° 654237

Outline

- Introduction
 - Overview
 - Motivation of the use case
- Work done so far
- Future work
- Conclusion

Overview

- The TTA is a non-for-profit network of universities interested in:
 - ✓ Having an impact on development of the societies in which they exist;
 - ✓ Problem-oriented, project-driven learning with a focus on innovation and entrepreneurship;
 - ✓ Offering students and faculty members opportunities to contribute to important projects for academic credit.
- The TTA supports members in:
 - ✓ Internal Academic development of pedagogical models and examination methods for problem oriented, project-driven learning (*Guidelines to Challenge Driven education*);
 - ✓ External networking with external stakeholders to define, fund and implement projects

Motivation of the Idea/Proposal

- Intended to be a web-based platform containing an integrated set of tools, applications, data repositories accessed via a portal: the TTA Portal.
- support collaboration and training to foster education among the partners, sharing of all sorts of resources and dissemination of results.
- Each partner to submit content i.e: *project proposals, project documents, news update, information sharing, video, etc* via content lists.
- Content management system

Work Done

- Tool Installed:
 - FG-API
 - FG-Portal
 - OAR,
- both Remotely

Work Done continue...

- The portal was created in the VM with the latest version of Liferay (v7.0.1 GA2)
- Also the FutureGateway API (the evolution of the Catania Science Gateway Framework, CSGF)
 - <http://tta-portal.sci-gaia.eu>

Work Done continue...

- Content were manually submitted and assigning DOIs to them.

Work Done Continue..

- customization of the portal (theme, layout, web contents, navigations, form, links, etc.)

The screenshot shows the homepage of the Technology Transfer Alliance Collaboration Platform. The header features the TTA logo on the left, the title "Collaboration Platform" in the center, and a navigation menu on the right with items: Applications, Projects, TTA Conferences, Events, Forum, and Contacts. Below the header, there is a "Welcome" message in a light blue box. On the left side, there is a section titled "About TTA" with a list of links: Mission and Vision, Organisation, The Board of TTA, and Stakeholders. On the right side, there is a section titled "Vision and Mission" with two paragraphs of text. The first paragraph describes the goal of offering opportunities to students, teachers, and researchers. The second paragraph details the mission of the TTA to facilitate capacity pooling and support members through project brokering and curriculum development.

- [Stakeholders](#)

Vision and Mission

To offer students, teachers and researchers at the member institutions opportunities to participate in advanced policy and development projects, promoting social entrepreneurship and innovation capacity building, for academic credit, including research, education and entrepreneurship components.

The mission of the Technology Transfer Alliance is to facilitate the pooling of capacity for development projects between its member institutions while offering their staff and students career opportunities and introduction to working life for students. The alliance supports its members by brokering of projects highly relevant to society involving research and educational activities and industrialization of research results in multi-stakeholder environments. TTA also promotes cooperation on curriculum development and establishment of research infrastructures.

	Menu	Link Created
1	Contact (Membership & Partnership)	https://oar.sci-gaia.eu/record/205 https://oar.sci-gaia.eu/record/206
2	Forum	http://discourse.sci-gaia.eu/c/projects/tta-al
3	Event	http://agenda.ttaportal.org .
4	contents stored in the OAR to their ORCID profiles	https://orcid.org/my-orcid
5	Wimea-ICT	http://wimea-ict.gfi.uib.no/experiments/crowd-funding.html
6	Bioinformatics	???
7	Event in the TTA agenda server for the Conference under the THEME: Open Science in Support of Education in Practice	https://agenda.ct.infn.it/event/1232/

Work Done

- Copying the content from the old portal : <https://tta-portal.misc.kth.se/home>
to new portal: <http://tta-portal.sci-gaia.eu/>
- Form done with the infotta2016 mailing list: *infotta2016@googlegroup.com*

Future plans (until end of July and until the Workshop in Dar es Salaam on 5th of September - duplicate this slides as many time as needed)

- To programmatically browse, download and upload contents on the OAR using REST APIs of Invenio;
- Continue to add contents on the menu lists
- Continue to create Event in the TTA agenda server

Summary and conclusions (tell us your experience about the Hackfest)

- The Exercise went well with the help of all organizers, administration people, presenters, etc.
- The tool were knew but well understood and taught
- Required resources were available, e.g: internet

Thank you!
